Photo Order (Files)

We prefer that you rename your digital images using a 3 digit number with leading zeros. E.g., 001.jpg, 002.jpg, etc. That isn't always possible though. Use this area to indicate the order you want the files shown based on their name.

Special Instructions

If we have missed something on this form or you want something special, write it down here. Special instructions would include, but are not limited to:

A type of graphic we might provide, a sound effect on a specific photo, a specific transition on a photo, a custom duration a specific photo will show, any kind of special effect you would like to see in the show.

Sending the Order

Fill out this Order Form.

Sort your printed photos, face up, in the order you want them view in the show. If they are to contain captions, title slides or be mixed with digital images, identify those photos by placing a post-it on their back or some other way we can identify them.

If you are including your own music, provide the ORIGINAL CD.

Package the contents in a secure envelope or box. Write on envelopes, DO NOT BEND, PHOTOS!, so the post office will know to keep them flat.

Send your order to:
